- Subsidize a “Hub and Spoke” model of providing administrative service to Villages. FY 23 and FY 24
 - Pazit Aviv explained Village were a great asset to the county during Covid. “Hub and Spoke” model: the Hub would be the umbrella in which villages would function providing services such as the non-profit entity, website, insurance, financial development, and administrative services. The villages will continue the educational, social, and volunteer services to their members.
- Advocacy: Certification program for developers and County staff for stronger Universal Design in new and refurbished housing for older adults and people with disabilities.

Public Policy- Ryan Wilson and Morris Klein

- Advocacy: the status of nursing home inspection in Montgomery County. Ask all to shoehorn this item and

continue to investigate ,write letters, and find out details of where the state of Maryland is in this manner

- Advocacy: The Public Policy Committee will continue to write letters to support the needs of older adults in Montgomery County at the county, state, and national levels

Aging and Disability Staff Ideas

- Increase funding for the Medical Adult Daycare supplement. MADC providers need a reliable commitment from Montgomery County to help meet the costs of labor so that they can continue to provide cost effective care and enable residents to age at home.
- Increase funding for mental health outreach for seniors (SORT). The increase will compensate staff to be available to support older adults and decrease the waiting list for services.
- Increase rates for adult foster care assisted living facilities. Support low-income seniors and adults with disabilities who live in assisted living facilities and short-term nursing home placement. Currently the lower rates hamper the placement of clients.
- Increase funding to support Respite Coordination. Montgomery County works with 100 organizations to provide respite care in the home , assisted living facilities , and medical day care. 100K would provide 3,225 respite hours.
- Address problems older adults face with housing. Renters can not afford rent increases. Consider supporting limits on rent increase to this population.
- Mandatory training program for managers of senior housing complex and housing.
